New York, Nov. 4.—The polls opened promptly at 6 o'clock this morning in every election district in this city, and the work of voting under the new ballot law began without delay. There was an unusually large number of workers about the polls, the People's Municipal league alone supplying a small army of them. Politicians of every party made unusual efforts to get out a full vote, and get it in early. The voting, in consequence of the requirements of the new law, proceeded more slowly than usual, but with greater steadiness, and at noon a greater proportion of the registered voters than is customary at this hour had cast their ballots. With but little delay, at Mr. Goddard's headquarters, on the contrary, it was said the voting was backward in many down town districts. It was estimated that the full vote could not be cast. It was estimated that the city vote would be in the neighborhood of 200,000. Reports were received also that the Republicans were voting the straight fusion ticket.

At Mayor Grant's headquarters it was said this forenoon that the voting was proceeding in an intelligent manner, and with but little delay. CHICAGO, Nov. 4.—The election in this city today, though hotly contested, has been very quiet. The day opened cool and clear, but the sky became overcast and rain was threatened. Later the clouds broke and the sun appeared. The polls opened at 6 a. m. and closed at 4 p. m.

The chief interest centered in the contest for the city, between the Republican Frank Lawler, Democrat, and James H. Gilbert, Republican. An element of interest was also injected into the contest for the position of county superintendent of public schools by the candidacy of Mrs. G. M. Mulligan, who was the Democrat's nominee.

The "little red school house" was the issue. Mrs. Mulligan is a Roman Catholic, and her opponent, Albert G. Lane, a Protestant, and the public school question was used for the purpose of turning the contents of the ballot into a religious issue. The Democrats claimed that the polls from 6 to 8 a. m. voting rapidly and sending them up to the hundreds; but later, when the voting began to slacken, the Democrats began to become more active. They held no conversation with ticket peddlers, but took from their vest pockets neatly folded tickets, the contents of which no one but themselves knew. Men who had not been to the polls for years visited them today, and cast their ballots for the Republican ticket.

The work had been done on registration day. In short, Cook county has not had an election in many years, and the rich and aristocratic came in such numbers to vote.

Through an error in distribution, the Republican ticket failed to reach some of the outlying wards at the opening of the polls, and many voters were obliged to come into the city to attend to their business.

Owing to the agitation on the compulsory school question, and the uncertain strength of the ticket of the Citizens or Patriot party, the Democrats, who were in the lead in several election districts, and the number of names on the registry list, it is thought the total vote would be about 245,000. The total number registered was 245,000.

One hundred and forty election districts gave Scott 11,982, Grant 15,000. John R. Fellows, Democrat, is elected to Congress from the Sixth district by over 6,000 majority.

Roswell P. Flower's majority in 128 election districts is estimated at 15,000. The following candidates are undoubtedly elected: Fellows, Democrat, Eighth district; Warner, Democrat, Eleventh district; Cummings, Democrat, Ninth district; Spicola, Democrat, Tenth district; Campbell, Democrat, Eighth district; Fitchell, Democrat, Thirteenth district.

Returns from all the congressional districts included in the election of the following candidates for Congress: Thirty-first district, J. H. Wadsworth, Republican; Thirty-second district, D. N. Lockwood, Democrat; Thirty-third district, L. Bunting, Democrat; probably the Thirty-fourth district will elect Hooker, Republican.

TRICA, N. Y., Nov. 4.—The indications are that Henry Bacon, Democrat, is elected to Congress from the Fifteenth district.

BUFFALO, N. Y., Nov. 4.—Returns from western New York continue to indicate the election of the following candidates for Congress: Thirty-first district, J. H. Wadsworth, Republican; Thirty-second district, D. N. Lockwood, Democrat; Thirty-third district, L. Bunting, Democrat; probably the Thirty-fourth district will elect Hooker, Republican.

MASSACHUSETTS.  
BOSTON, Nov. 4.—Twenty-five towns in Massachusetts give Blackmer, Prohibition, 348; Brackett, Republican, 340; Russell, Democrat, 247. The same towns last year gave Blackmer 432, Brackett 345, Russell 243. Brackett's net gain 83.  
BOSTON, Nov. 4.—Seventy-five towns of Massachusetts and 300 out of 355 precincts, of Boston, give for governor, Blackmer, Prohibition, 3,058; Brackett, Republican, 3,382; Russell, Democrat, 4,430. Russell's plurality 10,388. If Russell continues to gain on Brackett in the state outside of Boston as he has so far, and all indications at this point say that way, he is elected by at least 5,000 plurality. The Democrats have gained two congressmen at least. Sixty towns in Massachusetts give Blackmer, Prohibition, 1,200; Brackett, Republican, 1,158; Russell, Democrat, 934. Same towns last year gave Blackmer 1,090, Brackett 1,038, Russell 748. Net gain for Russell 679. If this continues Russell is elected. Brookline, the home of Congressmen Chandler, which was expected to give him a majority, votes for Blackmer, 663; Russell 787, Blackmer 38, Congressman Chandler, Republican, 736; Williams, Democrat, 738.

SOUTH CAROLINA.  
COLUMBIA, Nov. 4.—From indications so far, Tillman and his entire ticket are elected and seven Democratic congressmen. The vote was probably one of the smallest ever cast in the state.

COLUMBIA, S. C., Nov. 4.—Scattering reports from every section of the state indicate the election of Tillman, Democrat, for governor by 25,000 majority, and the regular Democratic state ticket by a large majority, except in the coast counties, which will surely be elected by no means.

Both parties claim the city ticket. Nothing has been received from the interior of the state, but leading Democrats here claim that Judge Fyau, Democrat, will surely be elected by a narrow margin, in the Thirteenth district.

Senator Vest arrived here this morning from a stump tour of the state, and says that the legislature will not only be Democratic, but that the Democrats will have an increased majority on joint ballot.

KANSAS CITY, Mo., Nov. 4.—The Democrats have carried this election by a majority ranging from 2,300 on the county ticket to 1,000 for Tarsney, Democrat, for Congress. Tarsney's total majority in the district is 3,200. By the Republican central committee to be over 3,000.

Returns from the Eleventh Missouri congressional district, indicate the election of R. H. Bland by 1,500 majority. Dockery, Democrat, in the Third Missouri is also elected.

KANSAS CITY, Mo., Nov. 4.—A dispatch to the Times from St. Louis, Mo., is that the Democrats have carried this election by a majority ranging from 2,300 on the county ticket to 1,000 for Tarsney, Democrat, for Congress. Tarsney's total majority in the district is 3,200. By the Republican central committee to be over 3,000.

ST. LOUIS, Mo., Nov. 4.—The Thirteenth ward, Tenth congressional district, in this city, gives Byrnes, Democrat, 138 majority over Kusey, Republican.

INDIANA.  
INDIANAPOLIS, Nov. 4.—Today was a perfect one for voting throughout the entire state. In this city there was a heavy vote early. The strict enforcement of the new law prevented any considerable crowds gathering near the polls, and as a result, no rows were reported in any quarter. The contents of the ballot were not illegal voting. Taken as a whole, the new system worked satisfactorily.

President Harrison visited the polls with several friends. He shook hands with his acquaintances, and then entered the polling room. He was less than a minute in the polling booth. Upon leaving he turned to the crowd and remarked: "It is plain, Ben Harrison here." To which the president responded with a smile: "Yes, and his vote just counts one."

After depositing his ballot, the president returned to the residence of Mr. McKee, where he remained until 4:30, when he left for the city. A large crowd was gathered at the train to see him off.

WISCONSIN.  
MILWAUKEE, Nov. 4.—When the polls closed at 5:30 this afternoon, the most exciting political struggle in the history of the city came to an end. The feature of the election was the contest between the Catholic and Lutheran clergy in marshaling their forces against the Bennett law.

At the polling booth at the corner of Chestnut and Milwaukee streets, the Catholic priest, Stanislaus, and the Lutheran pastor, St. Stanislaus Catholic church, two Polish priests busied themselves in seeing that the voters of the Catholic church were duly registered. The priest, Stanislaus, and the Lutheran pastor, St. Stanislaus Catholic church, two Polish priests busied themselves in seeing that the voters of the Catholic church were duly registered.

Most of the Lutheran churches held meetings last night, at which Democratic tickets were distributed. At the booths the Catholics had no objection to the priests, but the Lutherans were not so kind. The priests had been naturalized. Quietly as they had come they went away, and there were twenty-three more Democratic ballots in the box.

Most of the Lutheran churches held meetings last night, at which Democratic tickets were distributed. At the booths the Catholics had no objection to the priests, but the Lutherans were not so kind. The priests had been naturalized. Quietly as they had come they went away, and there were twenty-three more Democratic ballots in the box.

MASSACHUSETTS.  
BOSTON, Nov. 4.—Twenty-five towns in Massachusetts give Blackmer, Prohibition, 348; Brackett, Republican, 340; Russell, Democrat, 247. The same towns last year gave Blackmer 432, Brackett 345, Russell 243. Brackett's net gain 83.  
BOSTON, Nov. 4.—Seventy-five towns of Massachusetts and 300 out of 355 precincts, of Boston, give for governor, Blackmer, Prohibition, 3,058; Brackett, Republican, 3,382; Russell, Democrat, 4,430. Russell's plurality 10,388. If Russell continues to gain on Brackett in the state outside of Boston as he has so far, and all indications at this point say that way, he is elected by at least 5,000 plurality. The Democrats have gained two congressmen at least. Sixty towns in Massachusetts give Blackmer, Prohibition, 1,200; Brackett, Republican, 1,158; Russell, Democrat, 934. Same towns last year gave Blackmer 1,090, Brackett 1,038, Russell 748. Net gain for Russell 679. If this continues Russell is elected. Brookline, the home of Congressmen Chandler, which was expected to give him a majority, votes for Blackmer, 663; Russell 787, Blackmer 38, Congressman Chandler, Republican, 736; Williams, Democrat, 738.

SOUTH CAROLINA.  
COLUMBIA, Nov. 4.—From indications so far, Tillman and his entire ticket are elected and seven Democratic congressmen. The vote was probably one of the smallest ever cast in the state.

COLUMBIA, S. C., Nov. 4.—Scattering reports from every section of the state indicate the election of Tillman, Democrat, for governor by 25,000 majority, and the regular Democratic state ticket by a large majority, except in the coast counties, which will surely be elected by no means.
